Retirees with depleted [retirement portfolios](#) are returning to work when they once thought they might be retreating to the sidelines. Mothers of young children and many who are caring for aging parents in their homes are in need of professional employment without the demands of extended hours or long commutes.

Businesses are no longer restricted by geographic locations; they can be run from anywhere, recruit from anywhere, and serve customers almost anywhere. Tools like Skype, smartphones and the internet, along with decreasing prices of mobile devices have enabled companies to build workforces in a non-traditional way. Working from home or telecommuting at least part of the week is fast becoming the norm as many companies seek to decrease the cost of maintaining a traditional office space.
